SKF offers two different designs.

All designs are in line with OE specifications and comply with OE product quality and performance.

The **mounting** operations are **the same**.

Please avoid mixing up the two variants. See next page for details.

Version 1
VKBA 5676

Version 2
VKBA 5677

It is important to ensure that these are **not interchanged** when replacing the wheel bearing / wheel hub.

Version 1

If a rubber seal was previously mounted, a rubber seal must be mounted again.

VKBA 5676

Version 2

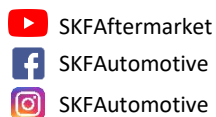

If a steel seal was previously mounted, a steel seal must be mounted again.
